

## IMPORTANT NOTICE

September 11, 2009

Subject: Regulation 8, Rule 45 BAAQMD Changes

Effective 10/1/2009 there will be a host of products that will no longer be compliant in the Bay Area and no longer available for purchase. Listed below are common products that will be affected by the Regulation 8, Rule 45 change. We have also tried to list possible alternative products to offer in place of the products that will no longer be compliant. This list is for informational use only and should not be considered all inclusive. The products on this list may be subject to change.

	<b><u>Non Compliant Effective</u> October 1, 2009</b>	<b>Possible Replacement</b>
Surface Cleaners	DX330, DX320, JX101	SWX350, SX1005, SXA330 (aerosol)

Other notes:

- All commonly used Primer Surfacer (NCP280/DPLV/DLV/JP205/JP252) already meet the 2.1 VOC Primer Surfacer limit.
- Also, the DLV & DSLV Sealers already meet the 2.8 VOC Primer Sealer limit.
- The NEW MBX OMNI basecoat will use the new MR29x reducers.
- MTV single stage will be compliant and will continue to use MR18x reducers.
- Fleet coatings ESSS, FBCH, FDGH, AUE & ALK will be compliant.
- CLV Concept Single Stage will be compliant and continue to use DT8xx reducers.  
Remember to order DX84/87 with your CLV.
