New Products

10:1 Premium Lightweight Filler

Quantum Premium Lightweight Filler is Evercoat's best sanding and smoothest finishing body filler ever. Its unsurpassed sanding qualities are the result of Quantum's patent-pending 10:1 hybrid polyester technology that utilizes an epoxy-enriched BPO catalyst. Quantum contains ZNX-7™ for adhesion to galvanized steel and aluminum, and is compatible with new HAPS-compliant and waterborne coatings. Also, this is the first filler to pass 500 hours salt spray test (ASTM B117), therefore returning the vehicle back to pre-accident condition.

Use with Quantum 10:1 BPO Catalyst (#457/458) only! (Uses 2 catalysts per container, SOLD SEPERATELY)

Part# FIB.450 \$23.36/58oz Container

10:1 Premium Finishing Putty

Quantum Premium Finishing Putty is Evercoat's best sanding finishing putty ever. The unsurpassed sanding qualities are attributed to its patent-pending 10:1 hybrid polyester technology that utilizes an epoxy-enriched BPO catalyst. Quantum Premium Finishing Putty's excellent corrosion resistance meets OEM specification of 500 hours salt spray (ASTM B117), therefore eliminating the costly step of coating the untreated metal before applying repair materials. Plus, it's compatible with new HAPS compliant and waterborne coatings.

Use with Quantum 10:1 BPO Catalyst (#457/458) only! (Uses 1 catalyst per container, SOLD SEPERATELY)

Part# FIB.460 \$36.42/30oz Container

Part# FIB.457 Low Temp Catalyst 8 oz Tube \$4.57

Quantum 10:1 BPO catalyst utilizes patent-pending technology that provides unsurpassed performance when mixed with Quantum fillers and putties. This epoxy-enriched BPO catalyst enhances sandability, reduces shrinkage and improved corrosion resistance. It is specially engineered to provide optimum performance in temperatures below 80°F, without over catalyzing the product. It also, provides end users with a greater tolerance for variations in catalyst volume.

Part# FIB.458 High Temp Catalyst 8 oz Tube \$4.57

Quantum 10:1 BPO catalyst utilizes patent-pending technology that provides unsurpassed performance when mixed with Quantum fillers and putties. This epoxy-enriched BPO catalyst enhances sandability, reduces shrinkage and improved corrosion resistance. It is specially engineered to provide optimum performance in temperatures 80°F and above, without under catalyzing the product. It also, provides end users with a greater tolerance for variations in catalyst volume.

New Reusable Portable Dry Wipe Bucket Dispensing System. Removable lid for easy on-off quick access. Pop Top is resealable, angled and connected to water channels for maximum protection. Handle designed for easy portability and added convenience. Dispensing Disk designed for single towel dispensing to reduce pilferage and lower cost-in-use. Plastic Container is durable to protect against dry or wet chemicals. Stackable packaging design allows for more efficient packing and storage. 200 Wipers/Container

Part# MOL.19-21-50 \$21.42 each

Refill for 19-21-50 Dispenser, 200 Wipers/Roll

Part# MOL.19-21-51 \$15.71/roll

SPECIAL!

Buy 2 (two) MOL.19-21-50 and receive

1 MOL.19-21-51 refill FREE!!
